BAIRD, WILLIAMS & GREER PARTNER ROBERT L. GREER NAMED ONE OF
“LAWDRAGON 500 LEADING LITIGATORS IN AMERICA”

PHOENIX – March 17, 2006 — Baird, Williams & Greer, LLP announced today that founding partner Robert L. Greer was named one of Lawdragon’s “500 Leading Litigators in America.” Lawdragon Inc., 600 Wilshire Boulevard, Los Angeles, California, is a national attorney service whose mission is “to provide the best guidance to consumers and corporate counsel in need of great lawyers.” Mr. Greer practices in the areas of personal injury, products liability and insurance litigation, and is one of only five Arizona lawyers selected in this nationwide list of distinguished trial lawyers.

The April 2006 issue of Lawdragon will feature all of the selected attorneys, including Mr. Greer. See www.lawdragon.com. Less than .01 percent of all lawyers in the U.S. are named members of the Lawdragon 500. To select this prestigious group, Lawdragon’s editorial staff conducts extensive research and telephones thousands of legal professionals to solicit their opinions as to the best lawyers in America. Lawdragon staff combine this research with votes collected through online ballots to produce the Lawdragon 500 print magazine and online feature.

Mr. Greer is pleased to be named to the Lawdragon 500. He has been lead counsel in more than 85 jury trials including products liability, wrongful death and airplane and helicopter accidents, and has been certified as a specialist in injury and wrongful death litigation through the State Bar of Arizona since 1988. He recently obtained a \$4.5 million bad faith verdict against the world’s largest insurer.

Baird Williams & Greer, LLP attorneys cumulatively have tried over 300 cases to juries and to the bench. Areas of expertise include real estate and business transactions, and litigation regarding personal injury, products liability, insurance claims and defense, commercial contract breach and commercial fraud, airports and aviation, construction defects and secured remedies, arts & entertainment law, and copyright and trademark infringement. The firm’s experience is bolstered by electronic trial and deposition technology that enables the firm to handle tens of thousands of documents at trial, and millions of pages of documents in discovery.
